PROGRAMME

MELUN VAL de SEINE

CERCLE D'ESCRIME MELUN VAL DE SEINE

Presentation

The Cercle d'Escrime Melun Val de Seine (CEMVS) is one of the most prestigious and renowned fencing clubs in France. Many French champions have been trained at this club and continue to be so. We are delighted to announce our summer 2027 training camp, aimed at French and international foil fencers.

The CEMVS offers a high-quality programme designed to help participants develop the essential techniques required for fencing. This camp is the ideal way to enjoy a pleasant holiday whilst practising your favourite sport as part of a high-quality training programme developed by professionals. What makes this camp unique is that it offers participants the incredible opportunity to compete against and learn from the best young French fencers of today, as well as instructors with top-level professional experience.

Throughout the training camp, participants will have the opportunity to develop, through a variety of activities, the psychomotor skills essential to the practice of fencing. The aim will be to enhance the quality of daily training and to prepare athletes effectively for competition. Topics such as managing downtime, analysing opponents, refereeing and tactics will be covered throughout the camp. The qualifications and expertise of the
coaches, as well as the presence of young international athletes, are the key strengths of this programme.

Foil fencers will also have the opportunity to train and interact directly with international champions and elite athletes from the CEMVS, such as Wallerand Roger, Eliot Chagnon, Paul-Antoine De Badts, Marion Rousseau and Emily Parra (subject to their international commitments at that time).

The CEMVS training course also offers a programme of physical conditioning and strength training under the guidance of a fitness coach who is experienced in working with elite athletes.

Who is it for ?

This camp is aimed at foil fencers **aged 12 to 17** (born between 2010 and 2015). Groups will be formed based on the participants' age and technical and physical ability, whilst also taking into account each individual's pace and capabilities. Providing high-quality sporting support is our priority.
